DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Hasegawa et al. (US 6,207,774).

Hasegawa's Examples 10 and 11 bridging col. 8 and col. 9 anticipate the instant claims. This rejection is recited since the amended claim 1 is not limited to a tetrasubstituted fluorenyl group as long as the groups on 2, 3, 6, and 7 positions are not simultaneously hydrogen atoms. Mr. Tohi's Declaration is irrelevant to the instant rejection because the rejection is under 35 U.S.C. 102(b) rather than 35 U.S.C. 103.

Art Unit: 1713

While the showing of the criticality and unexpected results might be used to overcome the rejection under 35 U.S.C. 103, it cannot overcome the rejection under 35 U.S.C. 102(b).

3. Claims 3 and 4 are rejected under 35 U.S.C. 102(e) as being anticipated by Tohi et al (US 2006/0161013) and Miller et al. (US 6,469,188).

Tohi's Example 22 demonstrates the ethylene polymerization in the presence of diphenylmethylene(η^5 -cyclopentadienyl)(η^5 -octamethyloctahydrodibenzofluorenyl) zirconium dichloride, which anticipates the instant claims.

Similar rejection is made over Miller's polymerization process of Example 52 in the presence of catalysts 8 and 9

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1713

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
